

SURFSIDE HOMEWORK HELPERS

The Surfside Education Committee is proud to announce the return of the SURFSIDE HOMEWORK HELPERS, a program in which Surfside middle school students provide homework help to Ruth K. Broad Bay Harbor Elementary School students.

The project's goal is to assist young children who have been identified by the elementary school's administration in completing basic math, spelling, language arts, and general homework assignments.

The middle school students will develop leadership and civic skills through this structured community service activity.

We are currently enrolling middle school "tutors."

Participants must be in seventh or eighth grade, live in Surfside, have at least a 3.0 academic average, and attend a

MANDATORY Workshop on

Thursday, January 5, 2005

In addition, the "homework helpers" must be willing to commit at least one hour per week from January 2006 - May 2006. Spaces are limited. To enroll or receive additional information, please contact Commissioner Ruben Coto at 305-861-4863 or

rcoto@aol.com.
